

## MySolidWorks for Students — How do I Make an Account and Why Should I?

I am going to walk you through how to make your own MySolidWorks for Students account so you can start exploring today! The first thing you must do is go to the MySolidWorks website. Click on the “Learn More” button on the MySolidWorks for Students banner.

You will be brought to the following screen where you should click "Create Account"

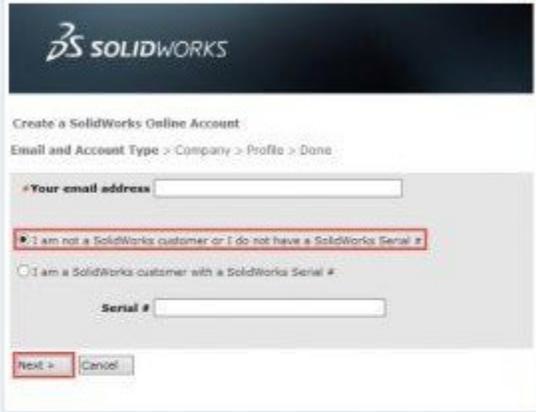

This will bring you to an instructional screen. Scroll down until you see the red "Create Account" button and click on it.

**Create a SOLIDWORKS online account to get started**  
Students can register their Student Serial # once they have created a SOLIDWORKS Online Account.

**Step 1**  
On the SOLIDWORKS online account creation page, enter your email address.  
Select "I am not a SolidWorks customer or I do not have a SolidWorks Serial #"

**Step 2**  
Click on "Next" to complete the account creation process, you should receive a confirmation email.

**Step 3**  
Once you have activated your account, Log in to MySolidWorks to register your Student Serial #.

[Create Account](#) [Log in to Register](#)

This will bring you to the SOLIDWORKS Customer Portal, which will pop up in a separate window. This is so that you will be able to see the instructions while creating your account. Once you have activated your account following the instructions within MySolidWorks, click on the blue "Log in to Register" button next to the red "Create Account" button you clicked earlier.

**Step 1**  
On the SOLIDWORKS online account creation page, enter your email address.  
Select "I am not a SolidWorks customer or I do not have a SolidWorks Serial #"

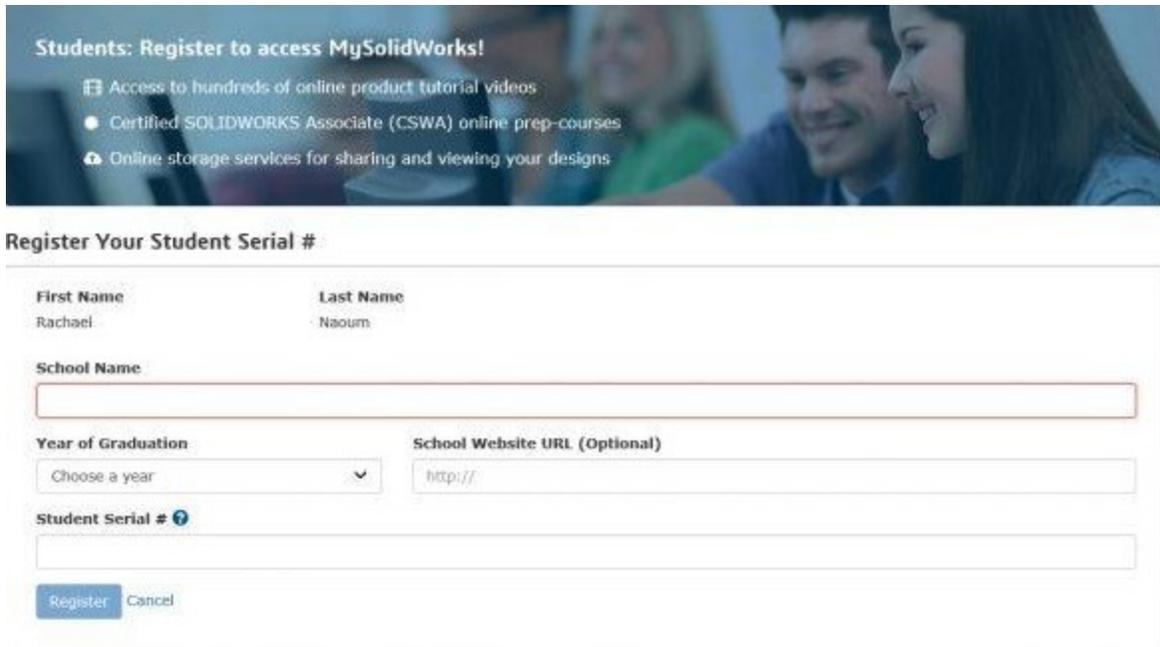

**Step 2**  
Click on "Next" to complete the account creation process, you should receive a confirmation email.

**Step 3**  
Once you have activated your account, Log in to MySolidWorks to register your Student Serial #.

[Create Account](#) [Log in to Register](#)

You will be taken to the following screen where you need to fill out your school's information:

**Students: Register to access MySolidWorks!**

- Access to hundreds of online product tutorial videos
- Certified SOLIDWORKS Associate (CSWA) online prep-courses
- Online storage services for sharing and viewing your designs

**Register Your Student Serial #**

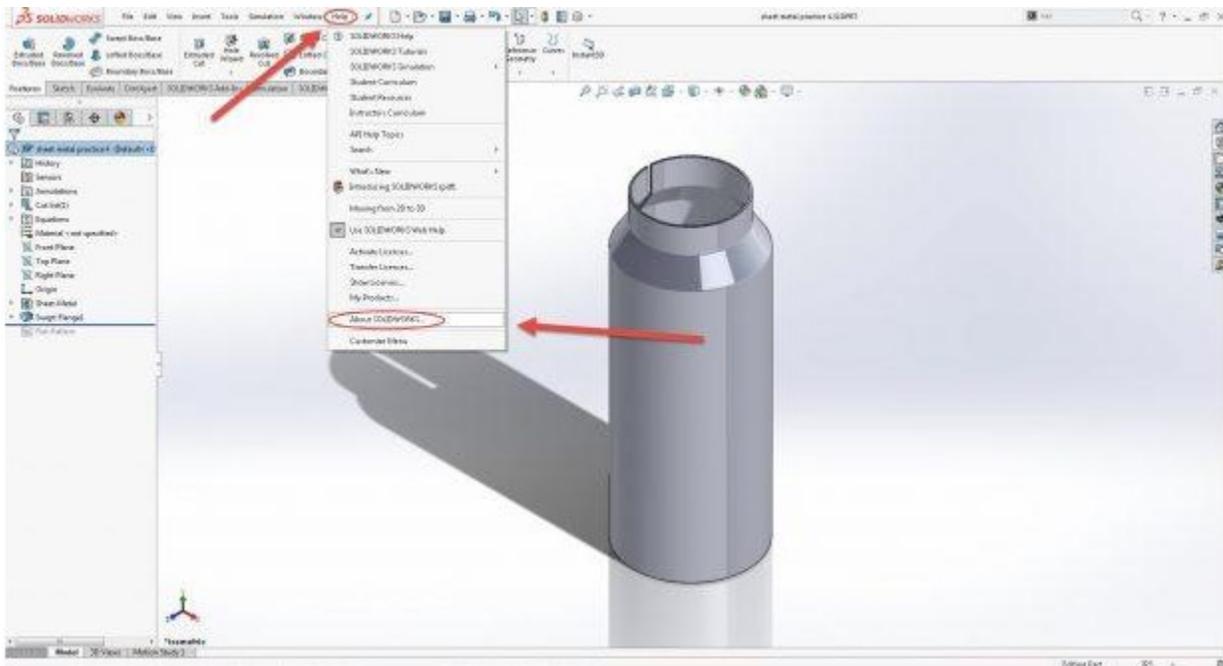

First Name: Rachael      Last Name: Naoum

School Name:

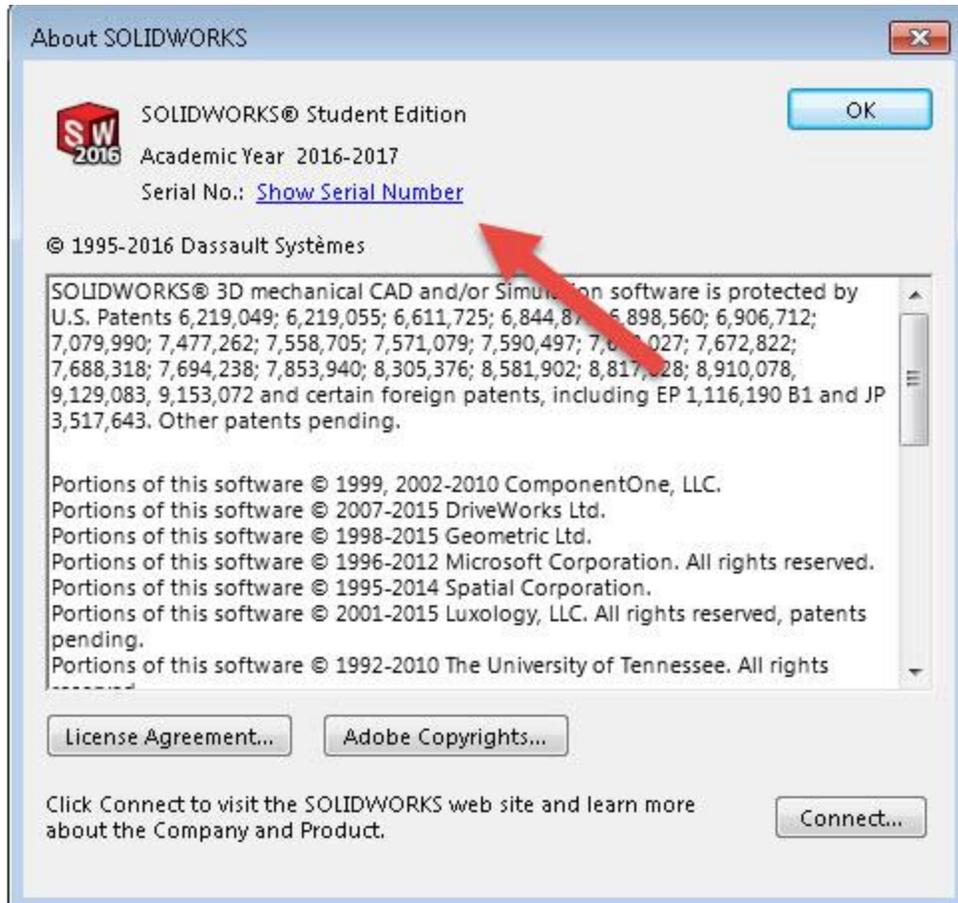

Year of Graduation:       School Website URL (Optional):

Student Serial # 

You will need your SOLIDWORKS student serial number for this step. If you are at school, you should automatically have a student license. If you bought the software yourself, it might be different. If you don't know your serial number, it can easily be found within the product itself. Open SOLIDWORKS on your computer; click the "Help" button in the top left menu, then click "About SOLIDWORKS..."

This will bring up a small window that displays all of the information about your specific version of SOLIDWORKS. Click on the blue hyperlink “Show Serial Number,” and your number will be displayed.

The way to know if you have a student license is to look at the first four digits of your serial number. If they are 9020, then you have a student license. If those digits are anything else, you do not have a student license and cannot make a Student account; you will need a Standard account. You are only eligible for a Student account with either a SOLIDWORKS Student Edition or Student Engineering Kit license. A Student Design Kit will not work.

If everything went as it should have, congratulations! You have made your account! Now you can start exploring MySolidWorks!
